Gina,

We are all back from holidays and everyone is charged and optimistic to make things happen for News Canada in 2010. As you know we had the entire company attend your session, everyone from the Receptionist to the Vice President of Finance.

Many of our staff were out late the night before plus they had just had a big lunch prior to your session. I am thrilled to say that your skill as a trainer kept this diverse group fully engaged.

Although many of your ideas were new, everyone found it easy to understand these new and inspiring concepts.

The feedback has been positive all around and we look forward to working with you once again in the near future.

Ruth Douglas
President & CEO, News Canada Inc
